#8045-B

BOSS PLOW TERMINAL CHASER™ SET

Engineered Specifically for BOSS 13-Pin “Cold Front” Style Connections

Scrape away corrosion and restore connectivity on your 2- and 13-pin, BOSS plow terminals with the #8045-B BOSS Plow Terminal Chaser™ Set. Cold weather, salt, calcium chloride, moisture and voltage quickly lead to green corrosion on plow connectors. Even a new connector can become corroded in just a few days. This 2-piece set of patented cleaning tools is designed to remove corrosion from male and female plow terminals. It works on both the main power and ground pins, as well as the signal/communication wires.

Features and Benefits

- Clean and restore male and female electrical plow connectors used on BOSS-style snowplows
- Remove corrosion increase harness life
- Repairs intermittent electrical connections
- 2-piece set with leather-type holster
- Patented
- Not compatible with Fisher®, Western®, or Meyer® plow connections — see IPA® #8045 for those applications

Includes

- Small Plow Terminal Chaser™
- Large Plow Terminal Chaser™
- Quality Leather Holster
