SMART MUTT® **PRO EDITION** (7-WAY ROUND PIN TRAILER TESTER)

Remote-Controlled, Mobile Diagnostic Trailer Tester for Commercial Trailer Lights and ABS

The Smart MUTT® with Pulsar® mode makes trailer testing a one-man operation and allows you to test all trailer electrical systems in a fraction of the time while reducing guesswork that could lead to expensive road calls and citations.

Features and Benefits

ELECTRICAL SYSTEM TESTING (12/24V)

- Power lights and electric brakes: Manually, All-On, Auto Scan, or by Remote Control from over 200 ft. away
- Audible and visual alerts: cross, open, overloaded and short circuit indication
- Trailer wiring and circuit testing
- Diagnostic Pulsar® mode allows safe overloaded/short circuit repair
- Amperage readout and range (-/+ 20 amp range)
- Ground failure detection differentiates between wire and chassis ground
- Remote control allows for one-man testing

ABS TESTING

- Produces ABS blink codes to test for ABS faults via Auxiliary and Brake Circuit activation (i.e. Meritor/Wabco, Bendix® TABS-6 and Haldex systems)

REMOTE CONTROL

- Remotely test all trailer electric circuitry individually with new 12-button remote controls
- Sync multiple (12) remotes to one unit

Specifications

Power:	12/24V DC
Internal Battery:	Group 31 or Similar (Battery Not Included)
Output:	20A @ 12/24V DC
Connection Type:	7-Way Round Pin
Controls:	Manual, Remote, Automatic
Materials:	Steel Construction
Weight:	40 lbs.
Dimension:	14" W x 28" H x 10" D

#9007M (PRO Edition) Includes:
