7 ROUND PIN TRAILER TERMINAL CONNECTOR CLEANERS

For Commercial Truck and Trailer Connectors

Clean and resize male/female, SAE J560, 7 round pin tractor-trailer connectors and thoroughly remove corrosion which when left alone can lead to poor electrical connections. This multi-patented tool also doubles as a pin/socket wear gauge and tests whether the connection needs to be resized or replaced.

Features and Benefits

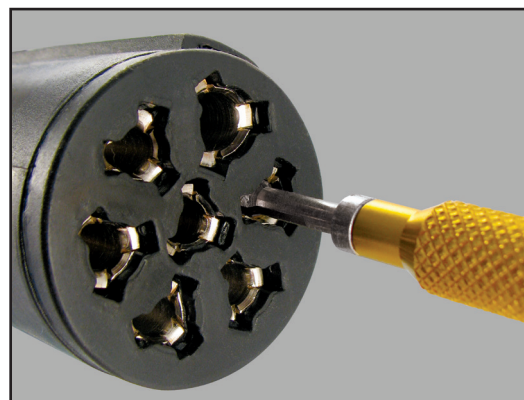

- For male and female 7 round pin truck/trailer connections
- Maintains continuity and prevents circuit failure
- Quickly and precisely cuts away corrosion
- Enhances electrical contact points and extends harness life
- Use as a pin-wear gauge
- Male and female terminal cleaners included
