

#8095 **PROFESSIONAL BORE AND PARTS CLEANING MASTER KIT**

Comprehensive Precision Detailing Kit for Common Caliber and Gauge Sizes

The Professional Bore and Parts Cleaning Master Kit includes brushes, solvents, oils, swabs and attachments for cleaning bores ranging from .220 diameter through .450 diameter. It also includes brushes and swabs for cleaning larger tubes and bores up to .750"/12 gauge. General detailing accessories include doubled-ended brushes, picks, an absorbent cleaning mat and cloth rags. The specially designed, professional-grade case provides four layers for versatility: the top layer houses cleaning accessories and attachments; the middle layers hold a cleaning mat and doubles as a portable work tray; the bottom layer holds bulk precision swabs, solvents and oils.
