FUSE SAVER® MASTER KIT

**Troubleshoot Short Circuits without Blowing Fuses
Includes Five Manual Resetting Breakers (5-30A), 10 ft. Fuse Cord, BuzzAlert
and 6-Piece Adapter Kit**

The Fuse Saver® is your solution for quick and safe short circuit troubleshooting without the risk of blowing fuses or smoke testing vehicle electrical systems. This kit equips you with five manual resetting thermal breaker handles (5-30A), color-coded to match the vehicle's fuse sizes. It also includes a 10-ft fuse cord with dual-type fuse box connector, a BuzzAlert module, and a 6-piece Fuse Box Adapter Kit. With this kit you can confidently stress test circuits and finally find that elusive short-without causing damage.

To use, plug the Fuse Saver®'s 10-ft cord into the fuse box, replacing the troubled circuit's fuse. Connect the appropriately rated breaker handle to the 10-ft cord. When a short is detected, the breaker will pop, and the user can manually reset it to reapply power and continue testing. The standard fuse cord comes with integrated ATC/ATO Standard and Mini adapter.

Features and Benefits

- Chase down short circuits without blowing fuses - Designed to stress circuits safely; ideal for testing without smoke or unnecessary disassembly
- Includes five resetting thermal breakers (5, 10, 15, 20, and 30A), BuzzAlert module, dual-type fuse box connector with 10-ft cord and most common fuse adapters in a custom blow-molded case
- Allows for quick identification and isolation of short circuits during diagnostics
- 10-ft cable allows a technician to move about a vehicle while troubleshooting
- Fuse adapters provide access to ATC/ATO Standard and Mini, FLF, FLS, JCase, MAXI, Female MAXI, screw-on style pal, European ceramic and all glass-style fuses
- Made in USA

Includes

- Five Resetting, Color-Matching Thermal Breakers: 5 Amps (orange), 10 Amps (red), 15 Amps (blue), 20 Amps (yellow) and 30 Amps (green)
- BuzzAlert: Audible, Short-Circuit Alert Module
- Fuse Box Adapter Kit
- Dual-Type Fuse Box Connector with 10-ft Cord
- Custom Blow-Molded Case
