

#9036

FUEL PUMP RELAY BYPASS KIT

Control and Test Fuel Pump Circuits Independent of Key-On Systems; Includes Three Relays for Most Domestic, Japanese, Korean and German Applications

The **Fuel Pump Relay Bypass Kit** is designed for professionals who need quick, ignition-free control of 12V fuel pump circuits. This kit allows fuel pressure testing and circuit diagnostics independent of key-on systems, making these essential tools for modern diagnostics. The #9036 kit includes spade relays for most domestic, Korean, Japanese and European vehicles from the 1970s to 2009.

Features and Benefits

- Actuate fuel pumps with the engine off for pressure testing
- Bypass relays to control circuits independent of key-on systems
- Plug-in relay replacements—no modifications needed
- Choose the right kit for your application: spade, rectangular, master, or amp-loop
- Amp-loop version (#9038A) allows current monitoring with standard probes

#9036-1
Small Spade Relay
2000 and Newer Domestic,
Korean, and Japanese

#9036-2
Medium Spade Relay
Domestic and Japanese
1970-2009

#9036-3
Large Spade Relay
Volkswagen 1999-2005
Audi 2004-2006
